Index of Titles

ACCELERATION Registrography: A New Method of Examinations Concerned with the Labyrinthine Righting Reflex. Nasaaki Kitahara, 203.

Antibiotics in the Blood, Spinal Fluid and Perilymph, A Study of the Relative Concentrations of, in Animals. Donald P. Vrabec, D. Thane R. Cody and John A. Ulrich, 688.

Aspirin, The Effect of, Upon Auditory Sensitivity. Peter A. McCabe and Frederick L. Dey, 312.

Audiometric Testing, Consistency of. M. Rodda, 673.

Auditory Artery, Physiologic and Histopathologic Effects of Microembolism of the Internal. Bob R. Alford, Edward F. Shaver, Jack J. Rosenberg and Frederick R. Guilford, 728.

Auditory Sensitivity, Effect of Aspirin Upon. Peter A. McCabe and Frederick L. Dey, 312.

Auditory Stimuli in Waking Man, Cerebral Evoked Response to. Tokuro Suzuki and Kiichiro Taguchi, 128.

BLASTOMYCOSIS of the Larynx. Robert J. Feder and Marion J. Acquarelli, 1091.

Brain Stem, Infectious Conditions of Masquerading as a Labyrinth Syndrome. P. E. Pantazopoulos and A. S. Constantinides, 194.

Bronchographic Sequelae of Endobronchial Tuberculosis. Roger Miles Rose, John Cardona and John F. Daly, 1133.

Bronchography, Clinical Reactions Following. John E. Rayle, 1120.

Bronchoscopes, Fiber-optic Laryngoscopes and Esophagoscopes. Paul H. Holinger, 1164.

CANCER. Bilateral Malignancy of the Maxillary Sinus. Donald Z. Sokol and F. Johnson Putney, 420.

Cancer, Hypopharyngeal, The Montgomery Tube to Palliate. Mark May, Paul Middleton and Gerald Gildersleeve, 63.

Cancer of the Middle Ear. John Conley, 555.

Carcinoma, Muco-Epidermoid, of Submandibular Gland. N. H. Mahindrakar, 682.

Cerebrospinal Fluid Rhinorrhea and Pneumocephalus, Observations on. James E. Gotham, John S. Meyer, John Gilroy and Raymond B. Bauer, 215.

Chemodectoma of Tympanic Plexus. Julius Newman, 109.

Chemodectoma (Glomus Tumor) of the Larynx. James D. Baxter, 813.

Cholesteatoma, Congenital, of the Middle Ear and Mastoid. Eugene L. Derlacki and Jack D. Clemis, 706.

Ciliary Activity, Effects of Nicotine on, in Vitro. John J. Ballenger, Frederick W. Dawson, Marion G. DeRuyter and Harry B. Harding, 303.

Ciliary Activity Indirectly Recorded by a New "Light Beam Reflex" Method: Studies on the Physiology of the Trachea. C. H. Hakansson and N. G. Toremalm, 954.

Cochlea, Efferent Fibers in the. Yasuya Nomura and Harold F. Schuknecht, 289.

Cochlear Blood Flow, Behavior of. Tamotsu Morimitsu, Kazumi Matsuo and Fumiro Suga, 22.

Cochlear Fluids, Formation and Flow of. Studies with Radioactive Potassium (K^{42}). Y. B. Choo and David Tabowitz, 140.

Cochlear Lesions, Effect of, Upon Audiograms and Intensity Discrimination in Cats. Donald N. Elliott and Manford McGee, 386.

Cochlear Nucleus, Stimulus Coding in. Nelson Y. S. Kiang, Russell R. Pfeiffer, W. Bruce Warr and Ann S. N. Backus, 463.

Cochlear Potentials and VIII Nerve Action Potentials in Normal and Genetically Deaf Mice. D. Mikaelian, B. R. Alford and R. J. Ruben, 146.

Cochlear Potentials of the Guinea Pig, Influence of Streptomycin and Dihydrostreptomycin on. M. Feinmeaser and H. Sohmer, 48.

Cogan's Syndrome, The Pathology of, Causing Profound Deafness. D. Wolff, W. G. Bernhard, S. Tsutsumi, I. S. Ross and H. E. Nussbaum, 507.

Congenital Atresia of the Larynx. I. I. Smith and A. D. Bain, 338.

DEAFNESS, Pathology of Cogan's Syndrome Causing Profound. D. Wolff, W. G. Bernhard, S. Tsutsumi, I. S. Ross and H. E. Nussbaum, 507.

Deafness, Sensorineural, Effect of Hearing Aid Use on Residual Hearing in Children. J. H. Macrae and R. H. Farrant, 409.

Dermal Grafts, The Use of, in Otolaryngology. George F. Reed, 769.

Dihydrostreptomycin and Streptomycin, Influence of, on Cochlear Potentials of the Guinea Pig. M. Feinmesser and H. Sohmer, 48.

EAR, Cancer of the Middle. John Conley, 555.

Ear. Cerebral Evoked Response to Auditory Stimuli in Waking Man. Tokuro Suzuki and Kiichiro Taguchi, 128.

Ear. Cochlear Potentials and VIII Nerve Action Potentials in Normal and Genetically Deaf Mice. D. Mikaelian, B. R. Alford and R. J. Ruben, 146.

Ear. Consistency of Audiometric Testing. M. Rodda, 673.

Ear, Degenerative Processes in the, of the Shaker Mouse. Ernest Glen Wever, 5.

Ear. Effect of Aspirin Upon Auditory Sensitivity. Peter A. McCabe and Frederick L. Dey, 312.

Ear. Effect of Cochlear Lesions Upon Audiograms and Intensity Discrimination in Cats. Donald N. Elliott and T. Manford McGee, 386.

Ear. Effect of Hearing Aid Use on Residual Hearing of Children with Sensorineural Deafness. J. H. Macrae and R. H. Farrant, 409.

Ear, Fluid Balance in the Inner. Merle Lawrence, 486.

Ear. Formation and Flow of the Cochlear Fluids. Studies with Radioactive Potassium (K^{42}). Y. B. Choo and David Tabowitz, 140.

Ear, Histochemical Study of the Stria Vascularis in, by Electron Microscopy. Yoshiaki Nakai, 326.

Ear, Inner, Bilateral Destruction of, After Skull Fracture. John W. Ray and William H. Saunders, 260.

Ear, Inner, Blood Vessels and Pigmentary Cells of. Consuelo Savin, 611.

Ear, Middle, and Mastoid, Congenital Cholesteatoma of the. Eugene L. Derlacki and Jack D. Clemis, 706.

Ear. New Observations on Changes in Hearing in the Temporal Course of Menière's Disease. Allan C. Goodman, 991.

Ear. Physiologic and Histopathologic Effects of Microembolism of the Internal Auditory Artery. Bob R. Alford, Edward F. Shaver, Jack J. Rosenberg and Frederick R. Guilford, 728.

Ear. Progeria: Audiologic Aspects. Max Nelson, 376.

Ear. Some Attributes of the "Loudness Recruitment" and "Loudness Decruitment." Edmund Prince Fowler, 500.

Ear. Stimulus Coding in the Cochlear Nucleus. Nelson Y. S. Kiang, Russell R. Pfeiffer, W. Bruce Warr and Ann S. N. Backus, 463.

Ear, Ventilation of Normal and Blocked Middle, A Reiew of Mechanisms. Richard A. Davison, 162.

Eighth Nerve Action Potentials and Cochlear Potentials in Normal and Genetically Deaf Mice. D. Mikaelian, B. R. Alford and R. J. Ruben, 146.

Eighth Nerve Tumors, Two Cases of Bilateral. Douglas G. Carruthers, 241.

Electronystagmographic Examination, Directional Preponderance and Unilateral Weakness as Observed in the. Alfred C. Coats, 655.

Endobronchial Tuberculosis, Bronchographic Sequelae of. Roger Miles Rose, John Cardona and John F. Daly, 1133.

Endotracheal Intubation, Histologic Changes Produced by. Walter L. Way and Francis A. Sooy, 799.

Epiglottis, Lipoma of the, and Lipoma of the Hypopharynx in the Same Patient. Watt W. Eagle, 851.

Epistaxis, Unilateral. An Unusual Cause. Prem Kakar and K. L. Sawhney, 158.

Epithelium, Respiratory, Regeneration of, After Minimal Surface Trauma. A. C. Hilding, 903.

Esophagoscopes, Fiber-optic Laryngoscopes and Bronchoscopes. Paul H. Holinger, 1164.

FACIAL Nerve in Temporal Bone Surgery, A Topographical Guide to the. The Triple "S" Triangle. James A. Donaldson and Barry Anson, 59.

Facial Paralysis, Retrograde. Jacob Sadé, 94.

Fistulae, Oromaxillary, A Study of, with a New Method of Repair. Adly Yassin, 350.

Foreign Body, Airway, Fatalities in Children. James T. Weston, 1144.

Frontal Sinus, Obliteration of the. Robert L. Goodale, 831.

Frontal Sinus Operation, Osteoplastic: Coronal Incision. William W. Montgomery, 821.

GLANDULAE Nasales Anteriores in the Human Nose. Finn Bojsen-Moller, 363.

Glioma, Intranasal. Herbert J. Deutsch, 637.

Grafts, Dermal, The Use of, in Otolaryngology. George F. Reed, 769.

HABITUATION, The Problem of, in the Light of the Information Theory. Jan Malecki, 970.

Hearing Aid, Effect of Use on Residual Hearing of Children with Sensorineural Deafness. H. H. Macrae and R. H. Farrant, 409.

Hearing Loss in Families, Occurrence of Episodic Vertigo and. Joel M. Bernstein, 1011.

Hearing, New Observations on Changes in, in the Temporal Course of Menière's Disease. Allan C. Goodman, 991.

Histamine, Use of Intravenous in Typical Neuralgias of the Face. Octavio Cal y Mayor, 1085.

Hypopharyngeal Cancer, The Montgomery Tube to Palliate. Mark May, Paul Middleton and Gerald Gildersleeve, 63.

Hypopharynx, Lipoma of, and Lipoma of the Epiglottis in the Same Patient. Watt W. Eagle, 851.

IRRADIATION, The Relation of, to Malignant Degeneration to Juvenile Laryngeal Papillomatosis. William F. Rabbett, 1149.

LABYRINTHINE Righting Reflex, Acceleration Registrography: A New Method of Examinations Concerned with. Masaaki Kitahara, 203.

Labyrinth Syndrome, Infectious Conditions of the Brain Stem Masquerading as. P. E. Pantazopoulos and A. S. Constantinides, 194.

Laryngeal Papillomatosis, Juvenile. The Relation of Irradiation to Malignant Degeneration in This Disease. William F. Rabbett, 1149.

Laryngectomy (Post) Patient, Psychologic Factors Influencing Vocal Rehabilitation of. Ricardo H. Bisi and John J. Conley, 1073.

Laryngocele. Ali Moghtader and Sebastian Arena, 1079.

Laryngoscopes, Fiber-optic, Bronchoscopes and Esophagoscopes. Paul H. Holinger, 1164.

Larynx, Articular Reflex Mechanisms in the. John A. Kirchner and Barry D. Wyke, 749.

Larynx, Blastomycosis of. Robert J. Feder and Mario J. Acquarelli, 1091.

Larynx, Congenital Atresia of the. I. I. Smith and A. D. Bain, 338.

Larynx, Glomus Tumor (Chemodectoma) of the. James D. Baxter, 813.

Larynx, Level of, During Childhood. A. F. Roche and D. H. Barkla, 645.

Leiomyosarcoma of Nose, Nasopharynx and Paranasal Sinuses. Ronald J. Pimpinella and Bela Marquit, 623.

Lipoma of the Epiglottis and Lipoma of the Hypopharynx in the Same Patient. Watt W. Eagle, 851.

Lung Biopsy, Transbronchoscopic, in Diffuse Pulmonary Disease. Howard A. Andersen and Edgar G. Harrison, Jr., 1113.

MAST Cells in the Upper Respiratory Tract. Harry P. Schenck, 863.

Mastoid and Middle Ear, Congenital Cholesteatoma of the. Eugene L. Derlacki and Jack D. Clemis, 706.

Maxillary Sinus, Bilateral Malignancy of. Donald Z. Sokol and F. Johnson Putney, 420.

Mediastinoscopy. Eric Carlens, 1102.

Melanoma, Primary Malignant, of the Nasal Fossa. P. E. Pantazopoulos, 604.

Menière's Disease, Histological Studies of. Franz Altmann and Mario Kornfeld, 915.

Menière's Disease, New Observations on Changes in Hearing in the Temporal Course of. Allan C. Goodman, 991.

Menière's Disease, Ultrasonic Surgery in. Jules G. Waltner, 174.

Microembolism of the Internal Auditory Artery, Physiologic and Histopathologic Effects of. Bob R. Alford, Edward F. Shaver, Jack J. Rosenberg and Frederick R. Guilford, 728.

Montgomery Tube to Palliate Hypopharyngeal Cancer. Mark May, Paul Middleton and Gerald Gildersleeve, 63.

Musculoplasty: Advantages and Disadvantages. J. H. T. Rambo, 535.

NASAL Fossa, Primary Malignant Melanoma of. P. E. Pantazopoulos, 604.

Nasal Mucosa, Measurements of Vascular Changes in. Richard T. Jackson and Irving R. Martinez, Jr., 433.

Nasal Patency, Considerations in the Measurement of. William R. Solomon and Albert W. Stohrer, 978.

Nasal Polyposis and Vasomotor Rhinitis, Rhinological Methods of Controlling. Francis L. Weille, 841.

Nasal Scleroma, Ultrastructure of, Emphasizing the Fine Structure of Klebsiella Rhinoscleromatis Within the Lesion. Amador Gonzalez-Angulo, Hector Marques-Monter, S. Donald Greenberg and Jorge Cerbon, 1022.

Nasopharynx, Nose and Paranasal Sinuses, Leimyosarcoma of. Ronald J. Pimpinella and Bela Marquit, 623.

Nasopharynx, Review of 41 Malignant Tumors of. H. James Hara, 84.

Nasopharynx, Uvula Sign in the Scleroma of. R. Badrawy, 441.

Nerve Grafting to Restore Function of the Trapezius Muscle After Radical Neck Dissection. Herbert H. Harris and J. R. Dickey, 880.

Neuralgias of the Face, Use of Intravenous Histamine in Typical. Octavio Cal y Mayor, 1085.

Neuronitis, Vestibular. Jaakko S. Lumio and Jahani Aho, 264.

Nicotine, Effects of, on Ciliary Activity in Vitro. John J. Ballenger, Frederic W. Dawson, Marion G. DeRuyter and Harry B. Harding, 303.

Nose, Glandulae Nasales Anteriores in the Human. Finn Bojsen-Moller, 363.

Nose. Measurements of Vascular Changes in the Nasal Mucosa. Richard T. Jackson and Irving R. Martinez, Jr., 433.

Nose, Nasopharynx and Paranasal Sinuses, Leiomyosarcoma of. Ronald J. Pimpinella and Bela Marquit, 623.

Nose, Resistance to Airflow Through the. Albert B. Craig, Jr., Maria Dvorak and Fred J. McIlreath, 589.

Nystagmus Following Repeated Unilateral Caloric Stimulation, Subjective Responses and. William E. Collins, 1034.

Nystagmus, Paroxysmal Positional. An Electronystagmographic and Clinical Study. Jan Stahle and Janis Terins, 69.

OROMAXILLARY Fistulae, A Study of, with a New Method of Repair. Adly Yassin, 350.

Osteoplastic Frontal Sinus Operation: Coronal Incision. William W. Montgomery, 821.

Otosclerosis in Identical Twins. Francisco Hernandez-Orozco and Gabriela Torres Courtney, 252.

Otosclerosis, Some Biochemical Findings in. F. B. De Jorge, L. J. Paiva, Decio Mion, A. B. Ulhoa Cinctra and Raphael da Nova, 189.

Ototoxicity Viomycin, in Man. A Cupulometric Study. John F. Daly and Noel L. Cohen, 521.

PAPILLOMATOSIS, Juvenile Laryngeal. The Relation of Irradiation to Malignant Degeneration in This Disease. William F. Rabbett, 1149.

Paralysis, Retrograde Facial. Jacob Sade, 94.

Paralysis, Vestibular, of Sudden Onset and Probably Viral Etiology. Cecil W. J. Hart, 33.

Pneumocephalus and Cerebrospinal Fluid, Observations on. James E. Gotham, John S. Meyer, John Gilroy and Raymond B. Bauer, 215.

Progeria: Audiologic Aspects. Max Nelson, 376.

Pulmonary Disease, Transbronchoscopic Lung Biopsy in Diffuse. Howard A. Andersen and Edgar G. Harrison, Jr., 1117

RESPIRATORY Epithelium, Regeneration of, After Minimal Surface Trauma. A. C. Hilding, 903.

Respiratory Tract, Upper, Mast Cells in the. Harry P. Schenck, 863.

Rhinoplasty, Responsibility of the Surgeon Toward Patients Desiring. Albert P. Seltzer, 424.

Rhinorrhea and Pneumocephalus, Observations on Cerebrospinal Fluid. James E. Gotham, John S. Meyer, John Gilroy and Raymond B. Bauer, 215.

SALIVARY Glands, Major, Mixed Tumors of: Prognostic Role of Capsular Structure. Carl-Magnus Eneroth, 944.

Scleroma, Nasal, Ultrastructure of. Emphasizing the Fine Structure of Klebsiella Rhinoscleromatis Within the Lesion. Amador Gonzalez-Angulo, Hector Marques-Monter, S. Donald Greenberg and Jorge Cerbon, 1022.

Scleroma of the Nasopharynx, Uvula Sign in. R. Badrawy, 441.

Sensory Perception, Inhibition and the Time and Spatial Patterns of Neural Activity in. Georg von Békésy, 445.

Sinus, Frontal, Obliteration of. Robert L. Goodale, 831.

Sinus, Frontal, Osteoplastic Operation: Coronal Incision. William W. Montgomery, 821.

Sinuses, Paranasal, Nose and Nasopharynx, Leiomyosarcoma of. Ronald J. Pimpinella and Bela Marquit, 623.

Skull Fracture, Bilateral Destruction of Inner Ear After. John W. Ray and William H. Saunders, 260.

Speech Reception Threshold, Relationship of Pure Tones to. Marvin Engelberg, 234.

Streptomycin and Dihydrostreptomycin, Influence of, on Cochlear Potentials of the Guinea Pig. M. Feinmesser and H. Sohmer, 48.

Stria Vascularis, Histochemical Study of in the Inner Ear by Electron Microscopy. Yoshiaki Nakai, 326.

Submandibular Gland, Muco-Epidermoid Carcinoma of. N. H. Manhindrakar, 682.

TEFLON Injection in the Correction of Velopharyngeal Insufficiency. Robert Lewy, Richard Cole and Joseph Wepman, 874.

Temporal Bone Surgery, A Topographical Guide to the Facial Nerve in. The Triple "S" Triangle. James A. Donaldson and Barry J. Anson, 59

Trachea, Histologic Changes in the, Following Tracheostomy. Stanton A. Friedberg, Thomas E. Griffith and George M. Hast, 785

Trachea, Studies on the Physiology of. I. Ciliary Activity Indirectly Recorded by a New "Light Beam Reflex" Method. C. H. Hakansson and N. G. Toremalm, 954.

Tracheostomy, Histologic Changes in the Trachea Following. Stanton A. Friedberg, Thomas E. Griffith and George M. Hass, 785.

Trapezius Muscle, Nerve Grafting to Restore Function of, After Radical Neck Dissection. Herbert H. Harris and J. R. Dickey, 880.

Tuberculosis, Bronchographic Sequelae of Endobronchial. Roger Miles Rose, John Cardona and John F. Daly, 1133.

Tumor, Eighth Nerve. David Halperin, 669.

Tumor, Glomus (Chemodectoma) of the Larynx. James D. Baxter, 813.

Tumors, Malignant, Review of 41 of the Nasopharynx. H. James Hara, 84.

Tumors, Mixed, of Major Salivary Glands: Prognostic Role of Capsular Structure. Carl-Magnus Eneroth, 944.

Tumors, Two Cases of Bilateral Multiple VIII Nerve. Douglas G. Carruthers, 241.

Tympanic Plexus, Chemodectoma of. Julius Newman, 109.

Tympanoplasty, Foreign Materials in. Yasushi Koide, 1055.

UVULA Sign in Scleroma of the Nasopharynx. R. Badrawy, 441.

VASOMOTOR Rhinitis and Nasal Polyposis, Rhinological Methods for Controlling. Francis L. Weille, 841.

Velopharyngeal Insufficiency, Teflon Injection in the Correction of. Robert Lewy, Richard Cole and Joseph Wepman, 874.

Vertigo, Occurrence of Episodic and Hearing Loss in Families. Joel M. Bernstein, 1011.

Vestibular Paralysis of Sudden Onset and Probably Viral Etiology. Cecil W. J. Hart, 33.

Viomycin Ototoxicity in Man: A Cupulometric Study. John F. Daly and Noel L. Cohen, 521.

Vocal Rehabilitation of the Post-laryngectomy Patient, Psychologic Factors Influencing. Ricardo H. Bisi and John J. Conley, 1073.
